

# ENROLL US!

We Want to Be a Partner in EPA's  
National Partnership for Environmental Priorities

## IDENTIFYING INFORMATION

Name of Organization: St. Luke's Hospital  
Principal Contact: Travis Lilly  
Authorizing Official: Mark Mustard  
Address: 1333 Southview Drive  
Phone/Fax: (304) 327-2979  
EPA RCRA ID Number: \_\_\_\_\_

Facility Name: St. Luke's Hospital  
Title: Maintenance Foreman  
Title: Director of Support Services  
City/State/Zip: Bluefield, WV 24701  
Email: tlilly@slhonline.org  
Date: 3/30/06

## PARTNER AGREEMENT

Our organization is choosing to become a partner in EPA's National Partnership for Environmental Priorities. Our goal is to reduce the quantity of one or more Priority Chemicals currently found in our products, processes, or releases using techniques such as source reduction, recycling, or other materials management practices. In this enrollment application, we identify one or more voluntary goals that we believe we can achieve as partners in this program. The voluntary goal(s) provided below is an initial estimate and may change over time. We may revise our goal(s) or withdraw from the program at any time. If/when we choose to revise our goals or withdraw from the program, we will notify EPA.

**GOAL #1. Chemical Name:** Mercury **CASRN:** 7439-97-6

**Narrative description of proposed project:** \_\_\_\_\_  
We have set a goal to remove all mercury-containing devices from our facility and all medical office buildings. During quarterly surveys, we will note devices containing mercury and replace them as our budget allows. Monthly allowances have been set for replacement devices.

**How we will measure success:** \_\_\_\_\_  
We will measure success by comparing the number of mercury-containing devices in our buildings before and after the project.

1a. Our voluntary **source reduction** goal for Chemical #1 is to reduce the amount of this chemical generated/used from a baseline amount of 50 pounds in March, 2006 (month/year) to a reduced amount of 0 pounds generated/used by March, 2007 (month/year).

1b. To accomplish this goal, we will use the following source reduction options (check all that apply):

- |  |  |
|--|--|
| <input type="checkbox"/> Equipment or technology modifications.                                      | <input type="checkbox"/> Process or procedure modifications.                 |
| <input type="checkbox"/> Reformulation or redesign of products.                                      | <input type="checkbox"/> Substitution of less toxic raw materials.           |
| <input type="checkbox"/> Improvements in inventory control.  | <input type="checkbox"/> Improvements in maintenance/housekeeping practices. |
| <input checked="" type="checkbox"/> Other (describe): <u>Replace all mercury-containing devices.</u> |  |

2a. In addition to, or in lieu of using source reduction methods, our voluntary **recycling or recovery** goal for Chemical # 1 is to increase the recycled or recovered quantity of this chemical from a baseline amount of \_\_\_\_\_ pounds in \_\_\_\_\_ (month/year) to an increased quantity of \_\_\_\_\_ pounds by \_\_\_\_\_ (month/year).

2b. To accomplish this recycling or recovery goal, we will use the following options (check all that apply):

- |  |
|--|
| <input type="checkbox"/> Direct use/reuse in a process to make a product.                |
| <input type="checkbox"/> Processing the waste to recover or regenerate a usable product. |
| <input type="checkbox"/> Using/reusing waste as a substitute for a commercial product.   |
| <input type="checkbox"/> Other (describe): _____   |
